

# 1<sup>ST</sup> INTERNATIONAL KAMPAI SYMPOSIUM

## SUSTAINABLE MANAGEMENT OF RESOURCES AND ENVIRONMENT IN THE 21<sup>ST</sup> CENTURY

# CALL FOR PAPERS

**NOVEMBER 6-7, 2017**

**HOKKAIDO UNIVERSITY · SAPPORO · JAPAN**

## INVITATION

We are pleased to announce a symposium entitled, “Sustainable Management of Resources and Environment in the 21st Century”, which will be held on November 6-7, 2017 in Hokkaido University, Sapporo, Japan.

This is an international symposium for the exchange of ideas and recent advances in the fields of sustainable resources management and environment.

This meeting will focus on the presentations of recent and on-going projects of PhD and master’s students from Hokkaido University (HU) and its sister institutions, network building among researchers and potential research collaborations.

## THEME

- Environmental Risk Assessment and Management
- Remediation of Contaminated Sites
- Mining Engineering
- Environmental and Resources Geology
- Waste Management and Recycling
- Contribution to Global Environmental Problems

Division of Sustainable Resources Engineering

Faculty of Engineering
