7th July 2016

Prof Imasiku A Nyambe
Director- Directorate of Research and Postgraduate Studies
Coordinator, UNZA IWRM Centre

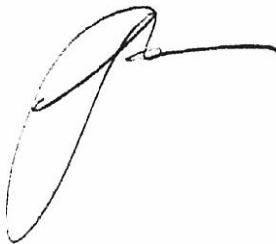

Dear Sir,

Research Borehole Drilling in Enviro Processing Ltd Mining Licence Area - Kabwe

I have been appraised by your team on the objectives of your research project and have identified the sites for your proposed diamond drill holes and the area to be excavated to provide soil sample for remediation experiments.

I will provide the necessary co-operation and hereby grant permissions for this work to be undertaken.

Yours faithfully,

Dr Geoff Casson

The Director
Directorate of Research and Graduate Studies
University of Zambia
LUSAKA

Dear Sir/Madam

RE: SOIL EXCAVATION AND DRILLING IN KABWE

We refer to your letter dated 12th April 2016, in which you requested this Council to allow you to undertake research in the District.

We therefore, inform you that you have been granted permission to do the research study in collaboration with Hokkaido University.

However, be reminded that as you consolidate and make up this information from the research, the Local Authority will be very grateful if it is availed with the research findings. This will be in line with the need to inform our community with proven scientific data.

Wishing you all the best as you do the research and enjoy your stay in our District.

Yours faithfully

Ronald M. Daka
TOWN CLERK/CHIEF EXECUTIVE
KABWE MUNICIPAL COUNCIL

cc. Director Public Health
