

KAMPAI Project Coordinator Hisao ODAGIRI
JICA HQ Special Advisor Michiko NYANGA

UNZA borehole

Group 3 Activity

11th Nov 2016

Three boreholes for monitoring of water levels in UNZA were constructed.

KAMPAI Office

KAMPAI Office in UNZA

15th Nov 2016

KAMPAI Office construction with grill door and burglar bar was completed.

Export mineral to Japan

150g of core mineral from Kabwe

24th Nov 2016

The export expense was about 300,000 yen yet they were valued zero!

Installation

Water level meter to monitor groundwater levels throughout the year.

White partition

Sharing the laboratory table with other side. The electricity switch of the office is other side.

Sampling 2

Preparing documents was laborious due to delaying tax payments to ZRA by UNZA.

Locking

For the security reason, all boreholes are locked.

Outside

The first office on the left with an air conditioner is KAMPAI Office.

Plan to purchase Lead Care II
JICA HQ has started to consult with JICA America Office on this procurement.
