JICA HQ Special Advisor Michiko NYANGA

KAMPAI PROJECT

January 2017

Network Environment

Wifi router

2017 has started with a good internet network environment by using MTN wifi router.

Rain season in Zambia

Raining in real earnest

Usually rain starts at the end of October and it began raining in real earnest from around December to January.

Business trip to Hokkaido

KAMPAI member meeting

19th Jan 2017~20th Jan 2017
Business trip to Hokkaido University to attend the KAMPAI member meeting.

SIM card

SIM card can be used not only for the mobile phone but also for the wifi router.

Leakage

It always leaks somewhere when it rains. Fortunately only my home was affected...

HU campus

Visit counterparts to the Graduate School of Economics, Vet. Medicine, Environmental Sci. and Science.

Double SIM card

As reliable communication way, two SIM cards (MTN and Airtel) are inserted.

Power cut

Residence areas had a 6-8 hours load shedding per day but UNZA was excluded.

Sapporo Ramen at the airport

The flight was disrupted due to a heavy snow but I enjoyed Sapporo noodles...
